Mysore City

- a brief profile

Mysore is the second largest city in the state of Karnataka, India. It lies about 146 km southwest of Bangalore, the capital of Karnataka. The city is spread across an area of 128.42 km² and is situated at the base of the Chamundi Hills. Mysore is the southernmost city of Karnataka and is a neighboring city of the states of Kerala and Tamil Nadu. Mysore is known as cultural capital of Karnataka. It is home for many educational, Industrial and Administrative centers. The residents of Mysore are known for their peaceful attitude and helpful nature. Sound infrastructure and lower living cost make the city a great location to live and Study. With its good connectivity with neighboring states, pleasant climate, value for education, culture etc. Mysore is a growing educational hub.

Heritage City Group Of Institutions

Affiliated to Rajiv Gandhi University, Bangalore

Heritage City Group of Institutions (HCGOI) has endorsed its name from the Heritage city caption of the city of Mysore. Heritage City College was established in the year 2020, with a vision to impart world class education in Medical and Health Science

streams at under-graduate, post-graduate and doctoral levels. Courses offered by Heritage City Group of Institutions are affiliated to Rajiv Gandhi University of Health Sciences and are recognized by various accrediting bodies. All our institutions are centers of excellence in their respective streams.

Heritage City Group of Institutions is one of the prominent academic establishments in Mysore. It is situated at Kuvempu Nagar which is heart of Mysore city. The infrastructure and facilities at Heritage city institutions are designed to specifically train and prepare the students to become top-notch experts in their field for providing the best professional service to the society while catering to the needs of the booming, challenging and ever changing health, research, educational and medical industry.

MISSION

To create empowered, committed, compassionate and skillful healthcare professionals, who make a difference in building a healthy family, community and the nation.

VISION

To develop Heritage Group of Institutions as a world class self-reliant institute for imparting Medical and other Health Science education at under-graduate, post-graduate & doctoral levels with global competence.

CORE VALUES

- Ethical Standards
- Mutual Respect
- Student Centric

SECURE YOUR FUTURE WITH A CAREER IN HEALTH CARE INDUSTRY

FUTURE OPPORTUNITIES IN HEALTH CARE INDUSTRY

“The road to healthy lifestyle is paved with good health care professionals!”

The health care sector is one of the world's biggest and fastest-developing sectors. In India there is an incremental growth of the industry which is expected to advance at the rate of 22.87% in the coming years. The scope of healthcare industry is tremendously widening, bringing in enormous opportunities in terms of employment and revenue. With the immense growth of the healthcare industry, huge investment, various government schemes and an increasing number of private hospitals, the career scope in Healthcare sector is increasing exponentially. Healthcare is also considered recession-proof. The pandemic has brought new attention to how vital healthcare workers are to the overall economy. The demand for these front-line professionals won't let up, even as the curve begins to flatten. Instead, we are just at the start of a decade of enormous growth for the healthcare industry. Entering this high-demand, high-reward industry starts with education. And hence healthcare industry is certainly one of the top career destinations for aspiring candidates.

BPT Bachelor of PHYSIOTHERAPY

Duration: 4 Years +
6 months Internship

HERITAGE CITY COLLEGE OF PHYSIOTHERAPY

Affiliated To RGUHS, Approved By IAP,
Recognized by Govt. Of Karnataka

“A Physiotherapist has the brain of a scientist the heart of a humanist and the hands of an artist”

This is one of the popular medical programs apart from MBBS and BDS. Physiotherapy is the stream of Health care sciences dealing with treatment and cure by applying physical intervention at the sites of the disorder. Physical therapy endeavours to address the ailments or injuries that limit a person's capabilities to move and perform useful exercises in their everyday lives.

Opportunities

There is a constant demand for physiotherapists as it has become a vital part of diagnosis and treatment, thus increasing the scope of the field. They can work independently as consultants, specialists, administrators, educators and researchers in an extensive range of professional settings.

HERITAGE CITY

Institute of Allied Health Sciences

Affiliated To RGUHS,
Recognized by Govt. Of Karnataka

BOT Bachelor of OCCUPATIONAL THERAPY

Duration: 4 Years +
6 months Internship

**“Medicine adds days to lives,
occupational therapy adds life to days.”**

Occupational therapy is the branch of science that deals with curing and rehabilitating the physically, emotionally and mentally disabled and challenged people. It focuses on adapting the environment according to the patient, and teaching and educating them in the necessary skills needed in performing daily activities.

Opportunities

There are several opportunities after pursuing a Bachelor of Occupational Therapy. The candidates are hired in **Rehabilitation Centers, Multi-Speciality Hospitals, Private Practice/Private clinics, Neuro Rehabilitation Centers, Geriatric homes/ Old age Homes** and many more, as Occupational therapists. There are many opportunities for occupational therapists outside India as well. OTs can go for any medical facilities or sports franchise.

B.Sc MEDICAL IMAGING TECHNOLOGY

Duration: 3 Years +
6 months Internship

Opportunities

The graduates have great prospects to work in various health care, both public and private sectors as- **Imaging Technologists, Application / Technical Specialist for imaging modalities in healthcare companies, and as teaching faculties in academic institutes.**

**“Digital imaging is as much about chemistry
as it is about semiconductors”**

Medical Imaging technology is related to the study of various techniques of capturing images (X-rays, ultrasounds and other medical equipment) of human body parts for medical as well as research purposes. This discipline plays a huge role in diagnosing different types of diseases and conditions. Interior organs/parts/tissues of human body are not visible to the naked eye. Doctors need medical imaging technology in order to obtain the visual representations of these organs, tissues and parts.

B.Sc MEDICAL LABORATORY TECHNOLOGY

Duration: 3 Years +
6 months Internship

**“Behind every
great doctor is
an exhausted
Laboratory
technician”**

**DEAN & IN CHARGE PRINCIPAL
PROF. DR. SHUBHA K S**

M.Sc., M.Phil, Ph.D
(Microbiology)

Medical Laboratory Technology is an allied health speciality concerned with the diagnosis, treatment and prevention of diseases through the use of clinical laboratory tests. In this programme the students learn to perform diagnostic analysis on body fluids which include haematological, bacteriological, immunologic chemical and microscopic tests that aid in the diagnosis and treatment of diseases. This programme also equips students with the knowledge and skills required to handle advanced lab equipment and perform accurate laboratory tests.

Opportunities

Hospitals, clinics, nursing homes, public health facilities, and commercial laboratories all have position open right now for qualified laboratory professionals. Employment of clinical workers are expected to grow as the volume of laboratory tests increases with population growth and the development of new types of tests.

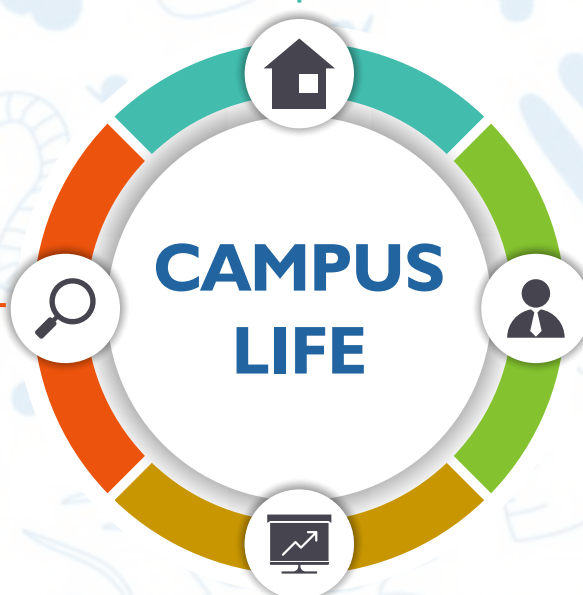

HOSTEL

Every resident has access to a wide range of activities, facilities and support on the campus. The institution offers clean, comfortable and safe residential facilities to all students. We provide an ideal environment for a congenial learning experience and encourage to participate in various committees in Hall Events such as Cultural, Discipline, Sports, Mess and Maintenance. We make total efforts to make our residents feel "At Home" during their stay by providing Kerala food at mess.

PLACEMENT

Our Placement Cell monitors the employment opportunities and arranges campus recruitment process interviews for the final year students and provides internship opportunities for pre-final year students. We start placement process for pre-final semester in the month of June. Students are prepared for all kind of interviews well in advance.

TRAINING

We have an exclusive training department dedicated to ensure quality training to boost the employability of the students. In order to make the students industry ready, they need to have skills compatible to the requirements of the industry. We have world class lab facilities & own multi-speciality hospitals for providing hands-on training. In addition to this, we are also imparting Career oriented skills pertaining to aptitude, communication, analytical reasoning, problem solving along with the basic technical skills relevant to their domain of expertise. This has enabled us to bridge the gap between industry and academia.

FOREIGN LANGUAGE TRAINING

Nursing curriculum usually focuses on vocational development to train students to become nursing professionals after graduation. Nursing job abroad is the dream for every nurse to improve lifestyle by earning more. Knowledge of a foreign language is one of the pre-requisite for nursing professionals to migrate to different foreign countries. At Heritage, we provide training in IELTS, OET and German language for interested candidates.
